There will be included in this sale young Scotch bulls suitable both in breeding and individual merit to head any herd in any country and you will also find straight Scotch heifers in this offering that are strictly first-class show animals and of just the proper age. Many of you are so familiar with the character of our herds and the kind of bulls each of us have been using that we deem it unnecessary to say more.

Should there be any known defects you shall know it. But the animal will be at owner's risk after being bid off and we will give no guarantee for future usefulness.

VICTOR LAD, besides being a bull of good form and quality, had that greatest of all recommendations—a great mother. Sired by Mr. Dustin's well-known imp. Lavender Lad, he had for dam one of the Cruickshank cows that made the reputation of the Scotch Short-horns in the Central West, to-wit: Victoria of Hickory Park, the champion Short-horn female at the Illinois State Fair of 1891. It will also be observed that instead of claiming descent from the latter-day Cruickshank stock Victor Lad runs direct through this sweepstakes cow to Victoria 55th and imp. Victoria 51st—both grand specimens of the wealthy-fleshed, broad-backed, short-legged, heavy-milking type frequently developed in the Sittyton herd some twenty-five years ago. Victoria 51st was one of the great cows imported many years ago into Illinois by Mr. Robert Milne, of Lockport, who was an old neighbor and friend of the late Mr. Cruickshank. Close students of Scotch Short-horn breeding regard the Victoria of this particular line of descent as possessing special value.

BARON GLOSTER, late chief stock bull in this herd, was an exceptionally short-legged red, with an ideal head, broad, full chine, low flanks, a wonderful loin and strong quarters; evenly balanced throughout and smoothly covered with a rich quality of flesh. He was sired by Commander 79556, out of Duchess of Gloster by imp. Julius 56643; second dam imp. 22d Duchess of Gloster by Barmpton Prince 45247. His sire, Commander, was bred by Mr. James I. Davidson, of Canada, who was for some years agent for the sale of Mr. Cruickshank's cattle in North America. Imp. Julius was a half-brother, through his sire, Barmpton (37763), to the celebrated imp. Baron Victor, so famous in the herd of Col. W. A. Harris.

IMP. JULIUS CÆSAR, a Cruickshank bull of the Venus tribe, got by Cumberland 50626 (46144), dam Jonquil by Pride of the Isles 45274; second dam Juliet by Barmpton Prince 45247.

IMP. GOLDSTICK, a fine breeding bull of Cruickshank's Venus tribe, got by Chancellor 68683, dam Geranium by Pride of the Isles 45274; Garland by Scotland's Pride (25100); Graceful by Baronet (15614).

IMP. JULIUS CÆSAR, a Cruickshank bull of the Venus tribe, got by Cumberland 50626, dam Jonquil by Pride of the Isles 45274; Juliet by Barmpton Prince 45247.

RED DUKE, a Kinellar Mina bull, got by Clifton Duke 7711, out of Isabella by Diphthong 3d (21547); Mina by Beeswing (12456); Crocus by Sir Arthur (12072); Bashful by Young Ury (10984).

CHAMPION OF ENGLAND, bred by Mr. Cruickshank and conceded to have been the greatest of all Sittyton sires.

BARON GLOSTER, late chief stock bull in this herd, was an exceptionally short-legged red, with an ideal head, broad, full chine, low flanks, a wonderful loin and strong quarters; evenly balanced throughout and smoothly covered with a rich quality of flesh. BARMPTON was the sire of such noted animals as imp. Baron Victor, Von Tromp, Germanica, Violet Bud and many others. He was sired by Royal Duke of Gloster (29864), dam Barmpton's Flower by Allan (21172); second dam Butterfly's Joy by 2d Duke of Wharfedale (19649), etc.

LORD LANCASTER, got by the great Champion of England (17526), dam Lovely 9th by Windsor Augustus (19157).

CÆSAR AUGUSTUS, a prize-winning son of Champion of England (17526), out of Emily by Lord Sackville (13249), was a very successful sire. Many offers of high prices were refused for him.

FORTH, the "grandest Short-horn of his time," and without a peer in the showing, was by Florist (16064), out of Anna Rose by John O'Groat (13090).

IMP. ILLUSTRIOUS was one of Felix Renick's admirable selections for the Ohio Importing Co., whose shipments—including Rose of Sharon, Young Mary, Young Phyllis, Josephine, etc.—laid the foundation for nearly all of the great Ohio and Kentucky herds. Abram Renick bought her as a yearling at the sale of Oct. 29, 1836, for \$775. Some of her descendants in the hands of James N. Brown's Sons acquired great celebrity in Western show-yards.

BARON GLOSTER, late chief stock bull in this herd, was an exceptionally short-legged, red, with an ideal head, broad, full chine, low flanks, a wonderful loin and strong quarter; evenly balanced throughout and smoothly covered with a rich quality of flesh. He was sired by Commander 79556, out of Duchess of Gloster by imp. Julius 56643; second dam imp. 22d Duchess of Gloster by Barmpton Prince 45247. His sire, Commander, was bred by Mr. James I. LORD LANCASTER 5TH, a Cruickshank bull that stood at the head of our herd for several years, impressing upon his progeny much of his own genuine Scotch character. He was a red, sired by imp. Julius (48073), dam Sittyton Lavender cow imp. Mary Ann of Lancaster 7th by Royal Lancaster (45535); second dam Mary Ann of Lancaster 3d by Hope of Britain (34179); third dam Mary Ann of Lancaster by Baronet; (30448), fourth dam Anne of Lancaster by Lord Raglan (13244). It thus appears that this bull was bred from the same foundation as Pickrell's celebrated Baron Booth of Lancaster.

IMP. EARL MARSHAL, bred at Collynie. Got by Cayhurst (47560), first choice calf at Sittyton in 1881; dam imp. Evangeline 4th, by Earl of Derby 2d (31061); grand dam Evangeline 2d by Diphthong (17681); great grandam Evangeline by Hotspur (21960).

IMP. PEARLETTE was one of the many splendid Short-horn cows imported about 1857 by the late R. A. Alexander of Woodburn Farm, Kentucky, whose herd at that time was probably the largest and best in the United States. Pearlette was a red-and-white cow, bred by S. E. Bolden, one of the leading English breeders of his day, noted for his connection with the Grand Duchesses. She was sired by the roan Booth bull Benedict, a son of the great Buckingham (3239), out of the beautiful Hawthorne Blossom by Leonard (4210). We are free to say that no other sort, not even the most approved Cruickshank families, have ever given us more gratifying results than have the Pearlettes. They have been regular breeders of high-class cattle, the bulls uniformly commanding good prices to head herds. This is the tribe that produced Baron Linwood 10th, first-prize bull calf at the Illinois State Fair of 1897, described by The Breeder's Gazette, as "a low-standing, thick-fleshed, full-flanked calf of good length, with nice head and level quarters, weighing 1,060 lbs. at eleven months."

BARON GLOSTER, late chief stock bull in this herd, was an exceptionally short-legged red, with an ideal head, broad, full chine, low flanks, a wonderful loin and strong quarters; evenly balanced throughout and smoothly covered with a rich quality of flesh. He was sired by Commander 79556, out of Duchess of Gloster by imp. Julius 56643; second dam imp. 22d Duchess of Gloster by Barmpton Prince 45247. His sire, Commander, was bred by Mr. James I. Davidson, of Canada, who was for some years agent for the sale of Mr. Cruickshank's cattle in North America. Imp. Julius was a half-brother, through his sire, Barmpton (37763), to the celebrated imp. Baron Victor, so famous in the herd of Col. W. A. Harris.

LORD LANCASTER 5TH, a Cruickshank bull that stood at the head of our herd for several years, impressing upon his progeny much of his own genuine Scotch character. He was a red, sired by imp. Julius (48073), dam the Sittyton Lavender cow imp. Mary Ann of Lancaster 7th by Royal Lancaster (4535); second dam Mary Ann of Lancaster 3d by Hope of Britain (34179); third dam Mary Ann of Lancaster by Baronet (30448); fourth dam Anne of Lancaster by Lord Raglan (13244). It thus appears that this bull was bred from the same foundation as Pickrell's celebrated Baron Booth of Lancaster.

BARRINGTON BUD, a Mary bull, bred by J. W. & C. C. Judy, Tallula, Ill.; sired by Short Tail 53903 (he also a Young Mary of Kentucky origin), dam Mary Belle Geneva by imp. Grand Duke of Geneva 23444; second dam Lucy Belle Airdrie by 20th Duke of Airdrie 13872. For many years the 20th Duke of Airdrie-Mary heifers were among the best Short-horns to be found in the blue-grass country.

It thus appears that this bull was bred from the same foundation as Pickrell's celebrated Baron Booth of Lancaster.

IMP. ARABELLA was a red-and-white cow bought by Felix Renick for the Ohio Importing Co.; coming out from England along with the carefully selected shipments that included Rose of Sharon, Young Mary, Young Phyllis, Illustrious, Harriet, Josephine, Flora, Matilda, etc.

BARON GLOSTER, late chief stock bull in this herd, was a uniform getter of thick-fleshed, mellow, early-maturing stock. He was of the Cruickshank Duchess of Gloster tribe and such of his get as were parted with found quick sale at high prices. He was an exceptionally short-legged red, with an ideal head, broad, full chine, low flanks, a wonderful loin and strong quarters; evenly balanced throughout and smoothly covered with a rich quality of flesh. He was sired by Commander 79556, out of Duchess of Gloster by imp. Julius 56643; second dam imp. 22d Duchess of Gloster by Barmpton Prince 45247. His sire, Commander, was bred by Mr. James I. Davidson, of Canada, who was for some years agent for the sale of Mr. Cruickshank's cattle in North America. Imp. Julius was a half-brother, through his sire, Barmpton (37763), to the celebrated imp. Baron Victor, so famous in the herd of Col. W. A. Harris.

LORD BOOTH was sired by the Ruby bull 1st Duke of Benton 22682, out of Caneva by 3d Duke of Vermilion 14116; second dam Daisy Booth by Mr. Pickrell's famous Baron Booth of Lancaster 7535; tracing on dam's side to imp. Rosemary by Flash.

YOUNG TRAVELER was of the Lady Elizabeth tribe, from whence the Spear's Nelly Blys were bred. He was sired by Thornedale Duke 15592, out of Ruth 2d by the noted Kentucky show bull Burnside 4618.

IMP. FILLIGREE, like imp. Pearlette, was included in the memorable importations of the late R. A. Alexander. She was a Booth extraction, belonging to the Fame or Farewell family.

BARON GLOSTER, late chief stock bull in this herd, was an exceptionally short-legged red, with an ideal head, broad, full chine, low flanks, a wonderful loin, and strong quarters; evenly balanced throughout and smoothly covered with a rich quality of flesh. He was sired by Commander 79556, out of Duchess of Gloster by imp. Julius 56643; second dam imp. 22d Duchess of Gloster by Barmpton Prince 45247. His sire, Commander, was bred by Mr. James I. Baron Victor, so famous in the herd of Col. W. A. Harris.

LORD LANCASTER 5TH, a Cruickshank bull that stood at the head of our herd for several years, impressing upon his progeny much of his own genuine Scotch character. He was red, sired by imp. It thus appears that this bull was bred from the same foundation as Pickrell's celebrated Baron Booth of Lancaster.

FLOWER LAD 2D was sired by the imported Torr-Booth bull Flower Lad 23170 (owned by Pickrell & Kissinger), out of Caroline 12th by Cherry Duke 2d 13640; second dam Caroline 6th by Butterfly 7635; third dam Caroline 2d by imp. IMP. YOUNG MARY was one of the greatest breeding cows that ever crossed the Atlantic. She was a large well-formed roan, a deep milker, and is said to have lived to be more than twenty years old and to have produced sixteen calves. Messrs. Van Meter & Cunningham, of Kentucky, paid \$1,500 for her and her daughter Pocahontas at the Ohio Co.'s sale in 1836. Hundreds of the best Short-horns ever bred in this country have descended from the Marys of the VanMeter herds. For Red Rose 8th of this tribe—the champion cow at the Philadelphia Centennial Exposition—B. F. Van Meter received \$1,700 for export to England. The grand sweepstake steer at the first American Fat-Stock Show was a Young Mary.

VICTOR LAD, besides being a bull of good form and quality, had that greatest of all recommendations—a great mother. Sired by Mr. Dustin's well-known imp. Lavender Lad, he had for dam one of the Cruickshank cows that made the reputation of the Scotch Short-horns in the Central West, to-wit: Victoria of Hickory Park, the champion Short-horn female at the Illinois State Fair of 1891. It will also be observed that instead of claiming descent from the latter-day Cruickshank stock Victor Lad runs direct through this sweepstakes cow to Victoria 55th and imp. Victoria 51st—both grand specimens of the wealthy-fleshed, broad-backed, short-legged, heavy-milking type frequently developed in the Sittyton herd some twenty-five years ago. Victoria 51st was one of the great cows imported many years ago into Illinois by Mr. Robert Milne of Lockport, who was an old neighbor and friend of the late Mr. Cruickshank. Close students of Scotch Short-horn breeding regard the Victorias of this particular line of descent as possessing special value.

BARON GLOSTER, late chief stock bull in this herd, was an exceptionally short-legged red, with an ideal head, broad, full chine, low flanks, a wonderful loin and strong quarters; evenly balanced throughout and smoothly covered with a rich quality of flesh. He was sired by Commander 79556, out of Duchess of Gloster by imp. Julius 56643; second dam imp. 22d Duchess of Gloster by Barmpton Prince 45247. His sire, Commander, was bred by Mr. James I. Davidson, of Canada, who was for some years agent for the sale of Mr. Cruickshank's cattle in North America. Imp. Julius was a half-brother, through his sire, Barmpton (37763), to the celebrated imp. Baron Victor, so famous in the herd of Col. W. A. Harris.

LORD LANCASTER 5TH, a Cruickshank bull that stood at the head of our herd for several years, impressing upon his progeny much of his own genuine Scotch character. He was a red, sired by imp. Julius (48073), dam the Sittyton Lavender cow imp. Mary Ann of Lancaster 7th by Royal Lancaster (45535); second dam Mary Ann of Lancaster 3d by Hope of Britain (34179); third dam Mary Ann of Lancaster by Baronet (30448); fourth dam Anne of Lancaster by Lord Raglan (13244). It thus appears that this bull was bred from the same foundation as Pickrell's celebrated Baron Booth of Lancaster.

PLUMED KNIGHT, it will be observed, is a son of the famous show cow Proud Bell, now owned by that enterprising breeder, C. B. Dustin, of Summer Hill, Ill., from the noted stock of Mr. Duthie, of Collnie, Scotland; a daughter of Princess Consort, a grand cow purchased by that discriminating breeder at a very long price. She was a red and came off a strain very celebrated for their great substance, heavy flesh and excellent milking properties. Proud Belle merits her worthy parentage, for besides being a show heifer, she is a grand milker. She was the first prize 2-year-old and a member of the champion herd over all beef breeds at Lincoln, Nebraska, in 1888. At the Illinois State Fair she won second as a 2-year-old, and again stood in the grand sweepstakes herd over all other beef breeds. She occupied a similar position in the champion Short-horn herd at St. Louis in October.

IMP. YOUNG MARY was bred by Mr. Clark, England, and imported by the Ohio Importing Company in 1834, and at the company's sale sold for \$1,500. There is no family of Short-horns that are such universal favorites as the descendants of imp. Young Mary. We believe more prize cattle have descended from the cow than any other cow on the globe. The Champion Show Herd of Kentucky is of this family. A number of this family have been exported to England at long prices.

IMP. BARON BARRINGTONIA 96060, used four years in Springbrook herd with marked success, his calves from cows very differently bred showing a great similarity; all seem to resemble their sire in length of body, clean cut head and neck, good handling qualities and generally useful characteristics.

VICTORIA'S KING (a Cruickshank Victoria Bull), sired by Lavender King 3d 99024; 1st dam 10th Linwood Victoria by imp. Master of the Rolls 99463; 2d dam 4th Linwood Victoria by imp. Baron Victor 42824; 3d dam imp. Victoria 63d by Pride of the Isles (35072); 4th dam Victoria 45th by Caesar Augustus (35704); 5th dam Victoria 42d by Forth (17866).

BARON GLOSTER, late chief stock bull in Forbes Bros'. herd, was a uniform getter of thick-fleshed, mellow, early maturing stock. He was an exceptionally short-legged red, with an ideal head, broad, full chine, low flanks, a wonderful loin and strong quarters; evenly balanced throughout and smoothly covered with a rich quality of flesh. He was sired by Commander 79556, out of Duchess of Gloster by imp. Julius 56643; second dam imp. 22d Duchess of Gloster by Barmpton Prince 45247. His sire, Commander, was bred by Mr. James I. Davidson, of Canada, who was for some years agent for the sale of Mr. Cruickshank's cattle in North America. Imp. Julius was a half-brother, through his sire, Barmpton (37763), to the celebrated imp. Baron Victor, so famous in the herd of Col. W. A. Harris.

LORD LANCASTER 5TH, a Cruickshank bull at the head of Forbes Bros'. herd for several years, impressing upon his progeny much of his own genuine Scotch character. He was a red, sired by imp. Julius (48973), dam the Sittyton Lavender cow imp. Mary Ann of Lancaster 7th by Royal Lancaster (45535); second dam Mary Ann of Lancaster 3d by Hope of Britain (34179); third dam Mary Ann of Lancaster by Baronet (30448); fourth dam Anne of Lancaster by Lord Raglan (13244). It thus appears that this bull was bred from the same foundation as Pickrell's celebrated Baron Booth of Lancaster.

RED ROB ROY was a Young Mary, bred in Kentucky from the Renick Rose of Sharon bull 6th Duke of Acklam 47852, dam Fuller Belle by the famous Kentucky breeding bull Duke of Noxubee 9920; 2d dam 4th Belle of Bath by same sire. Many of the best Marys ever bred in Kentucky carried a double cross of that famous Bates Darlington bull.

IMP. WESTERN LADY proved the most valuable female included in the Illinois Co.'s importation of 1857. At the company's sale at Springfield she was bought by the late Capt. James N. Brown of Sangamon county at \$1325. She was a roan, sired by the massive Grand Turk (12969); dam Wiseton Lady, running through Earl Spencer's herd to the blood of Mr. Mason of Chilton. The Western Ladys have supplied our show-yards and breeding herds with many Short-horns of beautiful finish and quality.

IMP. YOUNG MARY was bred by Mr. Clark, England, and imported by the Ohio Importing Company in 1834, and at the company's sale sold for \$1,500. There is no family of Short-horns that are such universal favorites as the descendants of imp. Young Mary. We believe more prize cattle have descended from the cow than any other cow on the globe. The Champion Show Herd of Kentucky is of this family. A number of this family have been exported to England at long prices.
